

ESSENTRA

UNLOCK YOUR POTENTIAL

Become an Essentra Apprentice

**Are you interested in joining
a global, diverse industrial
manufacturing company?**

At Essentra, we're always looking to develop talent. Our Apprenticeship Programme is an excellent way to gain skills and develop your career.

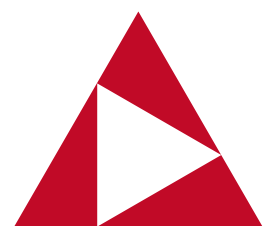

Our apprentices will learn the complex skills required to become an Injection Moulding Technician. Successful candidates will have a guaranteed permanent job upon successful completion of the programme, which is supported through development initiatives, in-house facilitators and industry recognised training partners.

WHAT YOU CAN EXPECT

- ▶ An open and professional work environment
- ▶ Tuition from the an industry leading training provider
- ▶ "On the job" and theory based training conducted onsite
- ▶ An assigned facilitator and development reviews with a Senior Manager
- ▶ The chance to complete a nationally-recognised qualification

Applications close
5th May*
